## Wheelchairs - Part 2: Determination of dynamic stability of electrically powered wheelchairs

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Terms and definitions .....  | 1           |
| 4                  | Principle .....  | 2           |
| 5                  | Apparatus .....  | 2           |
| 6                  | Initial set-up of test wheelchair .....                                | 4           |
| 6.1                | General .....  | 4           |
| 6.2                | Anti-tip devices .....   | 4           |
| 6.3                | Batteries .....  | 4           |
| 6.4                | Test load .....  | 4           |
| 6.4.1              | General .....  | 4           |
| 6.4.2              | Test dummy .....   | 4           |
| 6.4.3              | Human test occupant .....  | 4           |
| 7                  | Test procedure .....   | 4           |
| 8                  | Tests for rearward dynamic stability .....                             | 5           |
| 8.1                | General .....  | 5           |
| 8.2                | Wheelchair preparation .....   | 5           |
| 8.3                | Starting forward .....   | 6           |
| 8.4                | Braking when travelling forward on horizontal or uphill .....          | 6           |
| 8.5                | Braking when travelling backward .....                                 | 6           |
| 8.6                | Travelling forward up a step transition from a standing start .....    | 7           |
| 8.7                | Travelling forward up a step transition at maximum speed .....         | 7           |
| 8.8                | Travelling backward down a step transition from a standing start ..... | 8           |
| 9                  | Tests for forward dynamic stability .....                              | 8           |
| 9.1                | General .....  | 8           |
| 9.2                | Wheelchair preparation .....   | 8           |
| 9.3                | Braking when travelling forward on horizontal or downhill .....        | 9           |
| 9.4                | Travelling forward down a slope onto a horizontal surface .....        | 9           |
| 9.5                | Travelling forward up a step transition at maximum speed .....         | 9           |
| 9.6                | Travelling forward down a step transition from a standing start .....  | 10          |
| 10                 | Tests for dynamic stability in lateral directions .....                | 10          |
| 10.1               | General .....  | 10          |
| 10.2               | Wheelchair preparation .....   | 11          |
| 10.3               | Turning from a stationary start .....                                  | 11          |
| 10.4               | Turning in a circle at maximum speed .....                             | 11          |
| 10.5               | Turning suddenly at maximum speed .....                                | 12          |
| 10.6               | Travelling forward at an oblique angle to a downward step .....        | 12          |

|           |  |           |
|-----------|--|-----------|
| <b>11</b> | <b>Test report .....</b>   | <b>12</b> |
| <b>12</b> | <b>Disclosure of results .....</b>   | <b>13</b> |
|           | <b>Annex A (informative) Wheelchair set-up for remote control .....</b>          | <b>15</b> |
|           | <b>Annex B (informative) Use of a human test occupant .....</b>                  | <b>18</b> |
|           | <b>Annex C (normative) Stability scoring system .....</b>                        | <b>19</b> |
|           | <b>Annex D (informative) Recommended format for reporting test results .....</b> | <b>20</b> |
|           | <b>Bibliography .....</b>  | <b>23</b> |
