ISO 19617:2018 (E)

Traditional Chinese medicine — General requirements for the manufacturing process of natural products

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Assurance of manufacturing process

- 4.1 Premises
- 4.1.1 General
- 4.1.2 Storage areas
- 4.1.3 Production areas
- 4.1.4 Sanitation
- 4.2 Documentation
- 4.2.1 General
- 4.2.2 Crude drugs
- 4.2.3 Finished traditional Chinese medicinal products
- 4.2.4 Crude drug preparations
- 4.2.5 Processing instructions
- 4.3 Personnel
- 4.3.1 General
- 4.3.2 Crude drug control manager
- 4.3.2.1 General
- 4.3.2.2 Competence of crude drug control manager
- 4.3.2.3 Duties of crude drug control manager
- 4.3.3 Training
- 4.3.4 Personnel hygiene
- 4.4 Change control
- 4.5 Deviation control
- 4.6 Self-inspections

Annex A (normative) Manufacturing control

- A.1 General
- A.2 General considerations
- A.3 Mixing of batches and blending

Annex B (normative) Quality control

- B.1 General
- B.2 Sampling
- B.3 Testing
- B.3.1 Classification
- B.3.2 Identification tests
- B.3.3 Quantitative determination
