ISO/TS 20399-3:2018 (E)

Biotechnology — Ancillary materials present during the production of cellular therapeutic products — Part 3: Best practice guidance for ancillary material users

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Abbreviated terms

5 Quality declarations for manufactured biological materials used in the manufacture of a cellular therapeutic product

6 Evaluation criteria and mitigation of risk

6.1 Evaluation criteria
6.2 Mitigation of risk
6.2.1 Scientific approach
6.2.2 Supplier audit and questionnaires
6.2.3 Risk assessments

7 Characterization of biological materials

8 Managing changes to materials

8.1 Impact of changes to materials
8.2 Supplier agreement considerations
