

ISO/TS 20399-3:2018 (E)

Biotechnology — Ancillary materials present during the production of cellular therapeutic products — Part 3: Best practice guidance for ancillary material users

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Abbreviated terms
5	Quality declarations for manufactured biological materials used in the manufacture of a cellular therapeutic product
6	Evaluation criteria and mitigation of risk
6.1	Evaluation criteria
6.2	Mitigation of risk
6.2.1	Scientific approach
6.2.2	Supplier audit and questionnaires
6.2.3	Risk assessments
7	Characterization of biological materials
8	Managing changes to materials
8.1	Impact of changes to materials
8.2	Supplier agreement considerations
