

# ISO 20166-3:2018-12 (E)

## Molecular in vitro diagnostic examinations - Specifications for pre-examination processes for formalin-fixed and paraffin-embedded (FFPE) tissue - Part 3: Isolated DNA

---

| <b>Contents</b>              |  | <b>Page</b> |
|------------------------------|--|-------------|
| Foreword .....               |  | iv          |
| Introduction .....           |  | v           |
| <b>1</b>                     | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>                     | <b>Normative references .....</b>  | <b>1</b>    |
| <b>3</b>                     | <b>Terms and definitions .....</b>   | <b>1</b>    |
| <b>4</b>                     | <b>General considerations .....</b>  | <b>4</b>    |
| <b>5</b>                     | <b>Outside the laboratory .....</b>  | <b>5</b>    |
| 5.1                          | Specimen collection .....  | 5           |
| 5.1.1                        | General .....  | 5           |
| 5.1.2                        | Information about the specimen donor/patient .....                                       | 5           |
| 5.1.3                        | Information about the specimen .....   | 5           |
| 5.1.4                        | Specimen processing .....  | 6           |
| 5.2                          | Transport requirements .....   | 6           |
| <b>6</b>                     | <b>Inside the laboratory .....</b>   | <b>7</b>    |
| 6.1                          | Information about the reception of the specimen .....                                    | 7           |
| 6.2                          | Formalin fixation of the specimen or sample(s) .....                                     | 7           |
| 6.3                          | Evaluation of the pathology of the specimen and selection of the sample(s) .....         | 8           |
| 6.4                          | Post-fixation of frozen samples .....  | 9           |
| 6.5                          | Decalcification .....  | 9           |
| 6.6                          | Processing and paraffin embedding .....  | 9           |
| 6.7                          | Storage requirements .....   | 10          |
| 6.8                          | Isolation of DNA .....   | 10          |
| 6.8.1                        | General .....  | 10          |
| 6.8.2                        | General information for DNA isolation procedures .....                                   | 10          |
| 6.8.3                        | Using commercial kits .....  | 11          |
| 6.8.4                        | Using the laboratories' own protocols .....  | 11          |
| 6.9                          | Quantity and quality assessment of isolated DNA .....                                    | 12          |
| 6.10                         | Storage of isolated DNA .....  | 12          |
| <b>Annex A (informative)</b> | <b>Impact of the storage temperature on DNA Integrity in FFPE blocks of tissue .....</b> | <b>14</b>   |
| <b>Bibliography .....</b>    |  | <b>16</b>   |
