ISO 22212:2019 (E)

Traditional Chinese medicine — Gastrodia elata tuber

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Descriptions

5 Requirements

- 5.1 General characteristics
- 5.2 Morphological features
- 5.3 Moisture
- 5.4 Total ash
- 5.5 Dilute ethanol-soluble extract
- 5.6 Identification of marker compound(s)
- 5.7 Content of marker compound(s)
- 5.8 Heavy metals
- 5.9 Pesticide residues
- 5.10 Sulfur dioxide

6 Sampling

7 Test methods

- 7.1 Macroscopic identification
- 7.2 Determination of moisture content
- 7.3 Determination of total ash content
- 7.4 Determination of dilute ethanol-soluble extract content
- 7.5 Identification of marker compound(s)
- 7.6 Determination of marker compound(s) content
- 7.7 Determination of heavy metals
- 7.8 Determination of pesticide residues
- 7.9 Determination of sulfur dioxide content

8 Test report

9 Packaging, storage and transportation

10 Marking and labelling

Annex A (informative) Determination of moisture content

Annex B (informative) Determination of dilute ethanol-soluble extract content

Annex C (informative) Identification of gastrodin

- C.1 Preparation of test solution
- C.2 Preparation of standard solution
- C.3 Thin-layer chromatography (TLC) identification

Annex D (informative) Identification of p-hydroxybenzyl alcohol

- D.1 Preparation of test solution

D.2 Preparation of standard solution
D.3 TLC identification

Annex E (informative) Determination of gastrodin and p-hydroxybenzyl alcohol contents

E.1 Preparation of test solution
E.2 Preparation of reference standards solution
E.3 Chromatographic system and high-performance liquid chromatography assay
E.4 Content calculation of gastrodin and p-hydroxybenzyl alcohol

Annex F (informative) Reference values of national and regional limits in Gastrodia elata tuber
