European foreword ... **4**

Annex ZA (informative) **Relationship between this European Standard and the General Safety and Performance requirements of Regulation (EU) 2017/745 aimed to be covered** ... **6**

Annex ZB (informative) **Relationship between this European Standard and the General Safety and Performance Requirements of Regulation (EU) 2017/746 aimed to be covered** ... **8**

Foreword ... **10**

Introduction ... **11**

1 Scope ... **12**

2 Normative references ... **12**

3 Terms and definitions ... **12**

4 Quality system elements ... **14**

5 Basic principle of isolator systems ... **14**
5.1 General ... 14
5.2 Negative pressure isolators ... 15

6 Isolator system specification ... **15**
6.1 General ... 15
6.2 Risk management ... 15
6.2.1 General ... 15
6.2.2 Negative pressure isolator systems ... 16
6.3 User requirement specification ... 16

7 Design of isolator systems ... **16**
7.1 General ... 16
7.2 Materials of construction ... 17
7.3 Air-handling system ... 17
7.3.1 General ... 17
7.3.2 Air change rate ... 17
7.3.3 Airflow pattern ... 17
7.3.4 Temperature/humidity ... 18
7.3.5 Particulate air specifications ... 18
7.3.6 Recirculation of air ... 18
7.3.7 Pressure differentials ... 18
7.4 Operator interface ... 18
7.4.1 Isolator gloves/sleeves ... 18
7.4.2 Suits/half-suits ... 19
7.4.3 Access to the isolator/transfer systems ... 19
7.4.4 Devices acting as transfer ports ... 19
7.5 Ancillary isolator equipment ... 20
7.5.1 Portable and mobile equipment ... 20
7.6 Surrounding room classification ... 20
7.7 Process utilities ... 20

8 Validation ... **20**
8.1 General ... 20
8.2 Design qualification ... 21

8.2.1 General 21
8.2.2 Product/process application 21
8.2.3 Ergonomics 21
8.2.4 Cleaning 21
8.2.5 Bio-decontamination 22
8.2.6 Selection of bio-decontamination agent 22
8.2.7 Development and validation of bio-decontamination processes 23
8.2.8 Bio-decontamination agent generation and testing 23
8.2.9 Bio-decontamination parameters 24
8.2.10 Aeration and residue limits 24
8.2.11 Log reduction 24
8.2.12 Surface bio-decontamination of items 25
8.2.13 Development and validation of sterilization processes 25
8.3 Installation qualification 25
8.3.1 General 25
8.3.2 Installation 25
8.4 Operational qualification 26
8.5 Performance qualification 27
8.5.1 General 27
8.5.2 Cleaning 27
8.5.3 Bio-decontamination 27
8.5.4 Process simulation tests 27
8.6 Review and approval of validation 27
8.7 Requalification 28
9 Routine monitoring and control 28
9.1 Procedures 28
9.2 System integrity 28
9.3 Bio-decontamination process monitoring 28
9.4 Environmental monitoring 29
9.5 Change control 29
9.6 Maintenance and calibration 29
10 Personnel training 30
Annex A (informative) **Devices acting as transfer ports for portable and mobile equipment 31**
Annex B (informative) **Isolator system — Explanation of terms used and flow of air and material 34**
Annex C (informative) **Isolator system — Direct/indirect product contact surfaces 35**
