ISO 22236:2020 (E)

Traditional Chinese medicine —Thread-embedding acupuncture needle for single use

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Classification and configuration

4.1 Configuration
4.2 Classification

5 Material

5.1 Plunger type thread-embedding needle
5.1.1 Thread plunger handle
5.1.2 Thread plunger body
5.1.3 Handle of the needle
5.1.4 Needle tube
5.2 Pre-installed type thread-embedding needle
5.2.1 Handle of the needle
5.2.2 Needle tube
5.2.3 Thread holder
5.2.4 Thread

6 Requirements

6.1 Surface finish and visual appearance
6.2 Needle tube construction
6.3 Handle of the needle and thread plunger

7 Sterility and biocompatibility

7.1 Sterility assurance
7.2 Biocompatibility

8 Package

8.1 Primary packaging
8.2 Secondary packaging
8.3 Storage packaging

9 Inspection

9.1 Production batch
9.2 Factory inspection

10 Information supplied by the manufacturer

10.1 General
10.2 Primary package
10.3 Secondary package
10.4 Storage container
10.5 Instructions for use
10.6 Inspection certificate
