ISO 22213:2020 (E)

Traditional Chinese medicine — Glass cupping device

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Specification

4.1 Configuration
4.2 Dimensions and parameters
4.2.1 General
4.2.2 Volume of the inner cavity
4.2.3 Glass thickness
4.3 Material

5 Requirements

5.1 Biological compatibility
5.2 Surface smoothness
5.3 Glass quality
5.4 Performance
5.4.1 Negative pressure resistance
5.4.2 Pressure maintenance
5.4.3 Test methods
5.5 Sterilization and disinfection

6 Package

6.1 Primary package
6.2 Secondary package

7 Labelling

7.1 General
7.2 Primary package
7.3 Secondary package
7.4 Storage and transit package

Annex A (informative) Test methods for a glass cupping device

A.1 General
A.2 Negative pressure resistance
A.3 Pressure maintenance
