ISO 23193:2020 (E)

Traditional Chinese medicine — Lycium barbarum and Lycium chinense fruit

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Descriptions

5 Requirements

- 5.1 Morphological features
- 5.1.1 Appearance
- 5.1.2 Colour
- 5.1.3 Dimensions
- 5.1.4 Fracture
- 5.1.5 Odour
- 5.2 Microscopic characteristics
- 5.3 Moisture
- 5.4 Total ash
- 5.5 Acid-insoluble ash
- 5.6 Water-soluble extractives
- 5.7 Thin-layer chromatogram (TLC) identification
- 5.8 Content of polysaccharide
- 5.9 Content of marker compound
- 5.10 Heavy metals
- 5.11 Pesticide residues
- 5.12 Sulfur dioxide residues

6 Sampling

7 Test methods

- 7.1 Macroscopic identification
- 7.2 Determination of moisture content
- 7.3 Determination of total ash content
- 7.4 Determination of acid-insoluble ash content
- 7.5 Determination of water-solution extractives content
- 7.6 TLC identification
- 7.7 Determination of polysaccharide content
- 7.8 Determination of marker compound content
- 7.9 Determination of heavy metals contents
- 7.10 Determination of pesticide residues contents
- 7.11 Determination of sulfur dioxide residues contents

8 Test report

9 Packaging, storage and transportation

10 Marking and labelling

Annex A (informative) Determination of water-soluble extractives

Annex B (informative) TLC identification

B.1 Preparation of test solution
B.2 Preparation of reference solution
B.3 Developing solvent system
B.4 Procedure

Annex C (informative) Determination of polysaccharide content

C.1 Principle of the test method
C.2 Preparation of reference standard solution
C.3 Preparation of test solution
C.4 Construction of calibration curve
C.5 Content of polysaccharides

Annex D (informative) Determination of betaine content

D.1 Preparation of reference standard solution
D.2 Preparation of test solution
D.3 Chromatographic system
D.4 Content calculation of betaine

Annex E (informative) Reference values of national and regional limits of moisture, total ash, water-soluble extractives, polysaccharides, betaine contents in Lycium barbarum and Lycium chinense fruit

Annex F (informative) Reference information and methods for differentiating Lycium barbarum L. and Lycium chinense Mill.
