European foreword 4

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Termsanddefinitions 7

4 Apparatus 13

5 Test conditions 14

6 General requirements and test methods 15
6.1 Risk analysis 15
6.2 Rollators that can be dismantled 15
6.3 Fasteners 15
6.4 User mass/load limit 15
6.5 Structure requirements 15
6.6 Brakes 16
6.6.1 General requirements 16
6.6.2 Brake effectiveness 16
6.6.3 Durability of brakes 17
6.7 Handgrip 17

7 Materials 17
7.1 General 17
7.2 Flammability 18
7.2.1 General 18
7.2.2 Upholstered parts 18
7.3 Biocompatibility and toxicity 18
7.4 Infection and microbiological contamination 18
7.4.1 General 18
7.4.2 Cleaning and disinfection 18
7.5 Resistance to corrosion 18

8 Ingress of liquids 19

9 Temperatures of parts that come in contact with human skin 19

10 Safety of moving parts 19
10.1 Squeezing 19
10.2 Mechanical wear 20

11 Prevention of traps for parts of the human body 20
11.1 Holes and clearances 20
11.2 V-shape openings 21

12 Folding, adjusting and locking mechanisms 21
12.1 General 21
12.2 Folding mechanisms 21
12.3 Locking mechanisms 21

13 Carrying handles 21
13.1 General 21
13.2 Requirements 22
13.3 Test method 22

14 Surfaces, corners and edges 22

15 Static stability 23
15.1 Requirements for static stability 23
15.2 Test method for static stability 23
15.2.1 Forward-direction static stability test 23
15.2.2 Rearward-direction static stability test 24
15.2.3 Sideway-direction static stability test 25
15.2.4 Accessory equipment static stability test 26

16 Static strength 26
16.1 Static strength of resting seat 26
16.1.1 General 26
16.1.2 Requirements for static strength of resting seat 26
16.1.3 Test method for static strength of resting seat 26
16.2 Static strength of the rollator 27
16.2.1 General 27
16.2.2 Requirements for static strength of the rollator 27
16.2.3 Test method for static strength of the rollator 27
16.3 Strength of backrest 28
16.3.1 General 28
16.3.2 Requirement for strength of backrest 28
16.3.3 Test method for strength of backrest 28

17 Durability test 28
17.1 Requirement for durability 29
17.2 Test method for durability 29

18 Ergonomic principles 30

19 Packaging 30

20 Information supplied by the manufacturer 31
20.1 General 31
20.2 Information marked on the product 31
20.3 Instruction manual 31
20.4 Test report 32

Annex A (informative) Consideration items for hazards when designing the products 34

Annex B (informative) General recommendations 36

Bibliography 38
