ISO/TS 23105:2021-10 (E)

Biotechnology - Biobanking - Requirements for the biobanking of plant biological material for research and development

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 General requirements 3

5 Biological material collection 3
5.1 General 3
5.2 Collection procedure 3
5.3 Preparation of collection containers, tools, supplies, reagents and consumables 4
5.4 Biological material traceability 6
5.5 Collection 6

6 Transport of biological material and associated data 7

7 Preparation and preservation of biological material 8
7.1 General 8
7.2 Cutting, cleaning and bagging 8
7.3 Desiccation 9
7.4 Snap freezing and cryopreservation 9
7.5 Fast or rapid drying 9
7.5.1 General 9
7.5.2 Drying with dried spots card 10
7.5.3 Air-dried or oven-dried 10
7.6 Grinding 10
7.7 Biological material preservation in protective solution 10

8 Storage of biological material 11
8.1 General 11
8.2 Storage temperature 11
8.3 Biological material multiplication 11
8.4 Monitoring of biological material 12

9 Distribution and disposal of biological material 13

10 Information collection 13

Annex A (informative) Typical biological material storage temperatures and storage durations 14

Annex B (informative) Exemplary information table for plant biological material 15
