## Wheelchairs - Part 32: Test method for wheelchair castor assembly durability

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Castor assembly classification .....	2
5	Strength requirements .....	2
6	Test apparatus .....	2
6.1	Corrosion testing machine .....	2
6.2	Fatigue testing machine .....	3
6.2.1	Testing machine description .....	3
6.2.2	Abrasion surface .....	3
6.2.3	Obstacle profile .....	3
6.2.4	Obstacle placement .....	3
6.2.5	Castor assembly loading .....	4
7	Test preparation .....	4
7.1	Preparation of the castor stem assembly holder and support arm .....	4
7.2	Setup of the turntable .....	4
7.3	Abrasion surface .....	4
7.4	Environmental conditions .....	4
7.5	Castor assembly loading conditions .....	5
8	Test procedure .....	7
8.1	Test sequence .....	7
8.2	Fatigue and abrasion test procedure .....	7
8.3	Corrosion test procedure .....	7
8.4	Evaluation of test results .....	7
9	Disclosure requirements .....	8
10	Test report .....	8
Annex A (informative) Castor assembly testing system example .....		9
Annex B (informative) Castor assembly testing report .....		11
Bibliography .....		12
