

ISO 5472:2022-08 (E)

Healthcare organization management - Pandemic response (respiratory) - Walk-through screening station

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Overview of WTSS	3
4.1	Fundamental concept	3
4.2	Four types of WTSS	5
5	Open WTSS	5
5.1	Operational principles	5
5.2	Screening process	5
5.2.1	Registration	5
5.2.2	Examination	5
5.2.3	Specimen collection	5
5.2.4	Notification of test result	5
6	Negative pressure WTSS	6
6.1	Operational principles	6
6.2	Screening process	6
6.2.1	General	6
6.2.2	Registration and questionnaire	7
6.2.3	Examination	7
6.2.4	Specimen collection	7
6.2.5	Ventilation	7
6.2.6	Disinfection	8
6.2.7	Storage of the collected specimen	8
6.2.8	Notification of test result	9
7	Positive pressure WTSS	9
7.1	Operational principles	9
7.2	Screening process	9
7.2.1	Reservation	9
7.2.2	Registration	9
7.2.3	Medical examination	9
7.2.4	Specimen collection	10
7.2.5	After specimen collection	10
7.2.6	Disinfection	10
7.2.7	Notification of test result	10
8	Adaptable pressure	10
Annex A (informative)	Example of WTSS -- Negative pressurized medical container	11
