Snap-on bottles for metering pumps - Part 1: Tubular glass

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Symbols		3
5 Dimensions		4
5.1 General		4
5.2 Vials without sealing ring		4
5.3 Vials with sealing ring		7
6 Materials		10
7 Requirements		10
7.1 General requirements		10
7.2 Physical requirements		10
7.2.1 Vertical force		10
7.2.2 Particulate contaminations		10
7.3 Chemical requirements		11
7.4 Sterilization		11
8 Marking of the vial		11
9 Packaging options		11
9.1 General packaging requirements		11
9.2 Packaging for nonsterile glass vials		11
9.3 Ready to sterilize or sterile glass vials		11
Annex A (informative) Snap-on considerations		13
Annex B (informative) Tightness test		15
Annex C (informative) Inner depth measuring		16
Annex D (normative) Vertical force measurement test method		17
Annex E (informative) Example of a packaging configuration		19
