ISO 21801-2:2022-10 (E)

Cognitive accessibility - Part 2: Reporting

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Reporting requirements **1**
4.1 General 1
4.2 Context of use 2
4.3 Conformance 2
4.4 Structure of the report for each recommendation 2
4.5 Choosing and implementing methods and approaches for conformance evaluation 3
4.6 Participation of people with diverse cognitive abilities 4

5 Reporting on motivation and focus **4**
5.1 General 4
5.2 Means of motivation 4
5.2.1 Provide options for recruiting interest 4
5.2.2 Optimize individual options 5
5.2.3 Support autonomous use 5
5.2.4 Optimize usefulness and relevance 5
5.2.5 Provide options for the level of abstraction 6
5.2.6 Support focus on the desired outcome 6
5.2.7 Optimize challenge by varying demands and resources 7
5.2.8 Provide options for self-regulation, self-assessment and coping 7
5.2.9 Avoid unintentional trigger of inappropriate reactions 7
5.2.10 Provide means to meet differences in coping abilities 8
5.2.11 Optimize for self-determination and confidence 8
5.2.12 Minimize threats and maximize trust 8
5.2.13 Avoid enhanced accessibility compromising safety 9
5.3 Focus, attention and feedback 9
5.3.1 Clarify the object in focus 9
5.3.2 Support or facilitate shifts in focus 9
5.3.3 Avoid features that inadvertently change focus or division of attention 10
5.3.4 Provide relevant feedback 10

6 Representation and understanding **10**
6.1 General 10
6.2 Multiple means of representation and understanding 11
6.2.1 Simplify the language – dealing with words 11
6.2.2 Simplify the language – dealing with symbols 11
6.2.3 Simplify the message structure 11
6.2.4 Promote understanding across language barriers 12
6.2.5 Support translation processes 12
6.2.6 Provide and optimize options for finding information 12
6.2.7 Provide equal opportunities for comprehension 13
6.3 Spatial orientation and understanding of values and sizes 13
6.3.1 Provide means for comparing entities and sizes 13
6.3.2 Provide means for understanding scales and relative values 13

6.3.3 Provide means for understanding position in space 14
6.4 Simple, understandable and logical 14
6.4.1 Apply a logical and consistent design 14
6.4.2 Activate or supply background knowledge 14
6.4.3 Maximize transfer and generalization 15
6.4.4 Provide options to understand underlying concepts and ideas 15
6.4.5 Minimize complexity 16
7 Action 16
7.1 General 16
7.2 Means of expression 16
7.2.1 Provide multiple customizable media for information, expression and communication 16
7.3 Organization, planning and time management 17
7.3.1 Guide goal-setting 17
7.3.2 Simplify decision-making 17
7.3.3 Support strategic activities 17
7.3.4 Provide options for strategic activities 18
7.3.5 Protect the user from time constraints 18
7.3.6 Provide options for time perception 18
7.3.7 Provide options for orientation to time 19
7.3.8 Provide options to communicate time or preferences for time management 19
7.3.9 Provide options for adapting time demands 19
7.4 Flexibility and equal opportunities 19
7.4.1 Provide accomplishment of tasks in an identical manner whenever possible or in an equivalent manner when an identical manner is not possible 19
7.4.2 Optimize access to systems and interoperability 20
7.4.3 Provide alternative and multiple means of user interaction 20
7.4.4 Clarify options and alternatives that can be chosen and decisions that must be taken 20
7.4.5 Provide default configuration and adjustable parameters 21
7.4.6 Provide individualized access and reuse of user profiles 21
7.4.7 Ensure that the intended outcome of the system is easily accessible 22
7.5 Support for completion of tasks 22
7.5.1 Support sustained attention and concentration throughout the process 22
7.5.2 Provide means for avoiding mistakes 22
7.5.3 Clarify mistakes and errors 23
7.5.4 Simplify corrections of mistakes and errors 23
7.5.5 Provide appropriate support functions 23
7.5.6 Provide content-integrated contextual help 24
Annex A (informative) **Example of reporting template 25**
Annex B (informative) **Examples of test methods and how to apply them 26**
