|---|---|-------------|
| Foreword .....  |   | iv          |
| Introduction .....  |   | v           |
| 1   | Scope .....   | 1           |
| 2   | Normative references .....  | 1           |
| 3   | Terms, definitions and abbreviated terms .....                        | 1           |
| 3.1   | Terms and definitions .....   | 1           |
| 3.2   | Abbreviated terms .....   | 2           |
| 4   | Establishing and maintaining export measurement data standards .....  | 2           |
| 4.1   | General .....   | 2           |
| 4.2   | Stakeholder coalition establishment, roles and responsibilities ..... | 2           |
| 4.2.1   | Coalition establishment method .....                                  | 2           |
| 4.2.2   | Roles and responsibilities of coalition committee members .....       | 3           |
| 4.3   | Semantic content standardization .....                                | 3           |
| 4.3.1   | Unification of name .....   | 3           |
| 4.3.2   | Standardized data element coding .....                                | 3           |
| 4.3.3   | Report formatting .....   | 3           |
| 4.3.4   | Additional considerations .....                                       | 4           |
| 4.4   | Specification maintenance .....                                       | 4           |
| 5   | Governance policy establishment .....                                 | 4           |
| Annex A (informative) Japan SEAMAT program case study ..... |   | 6           |
| Bibliography .....  |   | 11          |
