## Guidance on quality of water for sterilizers, sterilization and washer-disinfectors for health care products

---

Contents	Page
Foreword .....	v
Introduction .....	vi
1 Scope .....	1
1.1 Inclusions .....	1
1.2 Exclusions .....	1
2 Normative references .....	1
3 Terms and definitions .....	1
4 Potable water quality .....	8
4.1 General .....	8
4.2 Water analysis .....	8
5 Water quality requirements for different applications/processes .....	9
6 Water in direct contact with the product being treated .....	10
6.1 Washer-disinfectors (WDs) .....	10
6.1.1 General .....	10
6.1.2 Water quality .....	10
6.1.3 Final rinse water quality .....	11
6.1.4 Water quality used during operational qualification (OQ) and performance qualification (PQ) of WDs .....	11
6.2 Moist heat sterilization using water spray or immersion .....	11
7 Water to generate steam that contacts the product .....	11
7.1 Moist heat sterilization .....	11
7.2 Ethylene oxide (EO) sterilization .....	12
7.3 Low temperature steam and formaldehyde (LTSF) sterilization .....	13
7.4 Vaporized hydrogen peroxide (VH2O2) sterilization .....	13
8 Water for the equipment without direct contact to the product .....	14
8.1 Washer-disinfectors (WDs) .....	14
8.2 Sterilizers .....	14
8.2.1 General .....	14
8.2.2 Ethylene oxide (EO) sterilizers .....	14
8.2.3 Vaporized hydrogen peroxide (VH2O2) sterilizers .....	15
9 Water treatment systems .....	15
9.1 General .....	15
9.2 Considerations for water treatment .....	15
9.3 Prefiltration .....	16
9.4 Carbon filter .....	16
9.5 Water softeners .....	16
9.6 Deionization (DI) or demineralization .....	16
9.7 Reverse osmosis (RO) .....	16
9.8 Electrodeionization (EDI) .....	17
9.9 Ultrafiltration .....	17
9.10 Distillation .....	17

<b>10</b>	<b>Water distribution and storage .....</b>	<b>17</b>
10.1	General .....	17
10.2	Storage vessels .....	18
10.3	Distribution pipework .....	18
10.4	Storage and distribution system disinfection .....	18
10.5	Distribution pumps .....	18
10.6	Inline ultraviolet (UV) lamps .....	18
<b>11</b>	<b>Monitoring, maintenance and control .....</b>	<b>19</b>
11.1	General .....	19
11.2	Water sampling technique .....	19
11.2.1	Sampling consistency .....	19
11.2.2	Sampling containers .....	19
11.2.3	Flushing .....	20
11.2.4	Sampling technique .....	20
11.3	Sterilizers -- Water sampling and tests .....	20
11.4	Washer-disinfector (WD) -- Water sampling and tests .....	20
11.4.1	Supply and final rinse water .....	20
11.4.2	Chemical quality .....	21
11.4.3	Microbial quality .....	21
11.4.4	Bacterial endotoxins .....	22
<b>12</b>	<b>Investigation of out-of-specification results .....</b>	<b>22</b>
12.1	General .....	22
12.2	Elements of out-of-specification investigation .....	22
12.2.1	Interpretation of results .....	22
12.2.2	Investigation .....	23
<b>13</b>	<b>Maintaining water quality .....</b>	<b>23</b>
13.1	Sterilizers .....	23
13.2	Washer-disinfectors (WDs) .....	24
<b>14</b>	<b>Cleaning and disinfection of water treatment systems .....</b>	<b>24</b>
14.1	General .....	24
14.2	Access to the water treatment system .....	24
14.3	Cleaning and disinfection methods .....	25
<b>Annex A (informative)</b>	<b>Water quality treatment methods and processes .....</b>	<b>26</b>
<b>Annex B (informative)</b>	<b>Water quality for use in sterilizers and washer-disinfectors (WDs) .....</b>	<b>28</b>
<b>Annex C (informative)</b>	<b>Examples of presentation of water quality issues during the processing of medical devices .....</b>	<b>33</b>
<b>Bibliography .....</b>	<b>36</b>
