ISO 10651-4:2023-03 (E)

Lung ventilators - Part 4: Particular requirements for user-powered resuscitators

Contents

Page

Foreword v

Introduction vii

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 General requirements for testing of a resuscitator 15
4.1 Risk management process 15
4.2 Type tests 16
4.3 Test conditions 16
4.4 Gas flowrate, volume and leakage specifications 17
4.5 Testing errors 17
4.6 Environmental conditions in the end user environment 18
4.6.1 Transport and storage conditions 18
4.6.2 Operating conditions 19
4.6.3 Shelf-life 20
4.6.4 Expected lifetime 20

5 Information supplied by the manufacturer 21
5.1 General 21
5.2 Additional marking requirements 22
5.3 Additional instructions for use requirements 22

6 Connectors and ports 23
6.1 General 23
6.2 Patient-connection port 23
6.3 Expiratory port connector for breathing gases 23
6.4 Face mask connectors 24
6.5 Intake connectors 24
6.6 Bag refill valve connector 24
6.7 Oxygen inlet connection 25
6.8 Pressure monitor connector 26

7 Operational requirements 26
7.1 Dismantling and reassembly 26
7.2 Resuscitator performance after contamination with vomitus 26
7.3 Mechanical strength 27
7.4 Resistance to separation from an axial load 27
7.4.1 Multiple patient multiple use resuscitators 28
7.4.2 Single use and single patient multiple use resuscitators 28
7.5 Immersion in water 29
7.6 Bag refill valve 29
7.7 Compatibility with substances 29

8 Ventilatory requirements 30
8.1 Delivered oxygen concentration 30
8.1.1 Non-spontaneously breathing patient 30
8.1.2 Spontaneously breathing patient 31

8.2 Expiratory resistance 33
8.3 Inspiratory resistance 34
8.4 Gas source excessive flow 34
8.5 Resuscitator deadspace 35
8.6 Ventilation performance 35
8.6.1 Minimum guaranteed tidal volume (VT) -- one hand 35
8.6.2 Minimum guaranteed tidal volume for B < 2,5 kg 36
8.6.3 Maximum deliverable tidal volume -- two hands 37

8.6.4 Maximum limited pressure 38

9 Additional requirements for resuscitator parts and accessories 39
9.1 General 39
9.2 Labelling 40
9.3 Breathing system filters 40
9.4 Stand-alone gas mixer 40

10 Processing requirements for a resuscitator and its accessories that are reusable 40

11 Biocompatibility 41

12 Usability 41

Annex A (informative) Particular guidance and rationale 43

Annex B (informative) Guide to marking and labelling requirements for resuscitators and their accessories 49

Annex C (informative) Symbols on marking 52

Annex D (informative) Reference to the IMDRF essential principles and labelling guidances 55

Annex E (informative) Reference to the essential principles 58

Annex F (informative) Reference to the general safety and performance requirements 60
