## Biotechnology - General requirements and considerations for cell line authentication

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | v           |
| Introduction ..... |  | vi          |
| <b>1</b>           | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>           | <b>Normative references .....</b>                              | <b>1</b>    |
| <b>3</b>           | <b>Terms and definitions .....</b>                             | <b>1</b>    |
| <b>4</b>           | <b>Principles of cell line authentication .....</b>            | <b>4</b>    |
| 4.1                | General .....  | 4           |
| 4.2                | Confirmation of cell origin .....                              | 4           |
| 4.3                | Detection of cross-contamination .....                         | 4           |
| 4.3.1              | Detection of cell line inter-species cross-contamination ..... | 4           |
| 4.3.2              | Detection of cell line intra-species cross-contamination ..... | 5           |
| 4.4                | Identification of cell line-specific characteristics .....     | 5           |
| 4.4.1              | Detection of cell line genome heterogeneity .....              | 5           |
| 4.4.2              | Detection of cellular differentiation .....                    | 6           |
| <b>5</b>           | <b>Application scenarios of cell line authentication .....</b> | <b>6</b>    |
| <b>6</b>           | <b>Sample preparation .....</b>                                | <b>7</b>    |
| <b>7</b>           | <b>Method options for cell line authentication .....</b>       | <b>7</b>    |
| 7.1                | General .....  | 7           |
| 7.2                | DNA-based cell line authentication methods .....               | 7           |
| 7.2.1              | Short tandem repeat profiling .....                            | 7           |
| 7.2.2              | Single nucleotide polymorphism profiling .....                 | 9           |
| 7.2.3              | DNA barcoding .....  | 9           |
| 7.2.4              | Multiplex PCR .....  | 10          |
| 7.2.5              | Whole genome sequencing .....                                  | 10          |
| 7.3                | Related methods for cell line identification .....             | 10          |
| <b>8</b>           | <b>Authentication method selection .....</b>                   | <b>11</b>   |
| 8.1                | General .....  | 11          |
| 8.2                | Cell origin .....  | 11          |
| 8.2.1              | Confirmation of cell line origin .....                         | 11          |
| 8.2.2              | Identification of cell line gene mutations .....               | 11          |
| 8.2.3              | Identification of cell line-specific properties .....          | 11          |
| 8.3                | Species types of cross-contamination .....                     | 11          |
| 8.3.1              | Cell line inter-species cross-contamination .....              | 11          |
| 8.3.2              | Cell line intra-species cross-contamination .....              | 12          |
| 8.4                | Cell culture methods .....                                     | 12          |
| 8.4.1              | Authentication for co-cultured cells .....                     | 12          |
| 8.4.2              | Authentication for ex vivo cell culture .....                  | 12          |
| 8.4.3              | Authentication for laboratory operation .....                  | 12          |
| 8.5                | Authentication purpose .....                                   | 12          |
| <b>9</b>           | <b>Quality control .....</b>                                   | <b>13</b>   |
| 9.1                | Operator training .....  | 13          |
| 9.2                | Instruments and equipment .....                                | 13          |

|  |  |    |
|--|--|----|
| 9.3  | Reagents .....                               | 14 |
| 9.4  | Validation and verification of methods ..... | 14 |
| 9.4.1  | General .....                                | 14 |
| 9.4.2  | Validation .....                             | 14 |
| 9.4.3  | Verification .....                           | 14 |
| 10   | Report .....                                 | 15 |
| 10.1   | Reporting .....                              | 15 |
| 10.2   | Evaluation of measurement uncertainty .....  | 15 |
| Annex A (informative) Detection methods for cell line authentication ..... |  | 16 |
| Bibliography .....   |  | 18 |
