

ISO 11040-4:2024-06 (E)

Prefilled syringes - Part 4: Glass barrels for injectables and sterilized subassembled syringes ready for filling

Contents

Page

Foreword..... v

Introduction vii

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 General requirements 4

4.1 Quality systems4

4.2 Testing.....4

4.3 Documentation.....4

5 Syringe barrel 4

5.1 Design including dimensions.....4

5.1.1 Dimensions for 6 % Luer slip and 6 % Luer slip for Luer lock adapter front end syringes.....4

5.1.2 Specific dimensions for front end design for 6 % Luer slip and 6 % Luer slip for Luer lock adapter6

5.1.3 Dimensions for staked needle (SN) syringes.....7

5.1.4 Front end design for staked needle syringe9

5.2 Functional testing of Luer connection.....10

5.3 Material.....10

5.4 Performance requirements.....10

5.4.1 Hydrolytic resistance glass barrel10

5.4.2 Annealing quality10

5.4.3 Lubrication of the inner surface10

5.4.4 Flange breakage resistance.....10

5.4.5 Front end breakage resistance11

6 Sterilized subassembled syringes ready for filling 11

6.1 General.....11

6.1.1 Design.....11

6.1.2 Raw materials properties.....11

6.1.3 Documentation.....11

6.2 Sterility.....11

6.3 Pyrogenicity/endotoxins.....12

6.4 Particulate matter.....12

6.5 Additional requirements to specific components of sterilized subassembled syringes ready for filling.....12

6.5.1 Syringe barrel12

6.5.2 Needle13

6.5.3 Syringe closure system.....14

6.6 Syringe closure system tightness.....15

7 Packaging 15

8 Labelling 16

Annex A (informative) Examples of types of sterilized subassembled syringes ready for filling 17

Annex B (informative) Additional components for a subassembled syringe ready for filling 19

Annex C (normative) Test methods for syringe barrels 20

Annex D (informative) Sample preparation for endotoxin and particulate determination	26
Annex E (informative) Glide force test method	29
Annex F (informative) Needle penetration test	32
Annex G (normative) Test methods for front end components	35
Annex H (informative) Tightness test	50
Bibliography	52
