ISO 8284:2024-12 (E)

Traditional Chinese medicine - Simplified accelerated stress simulation methods

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Simplified accelerated stress simulation methods **2**
4.1 General 2
4.2 Different types of accelerated stress simulation 3
4.2.1 Types of accelerated stress 3
4.2.2 Accelerated gas stress simulation 3
4.2.3 Accelerated chemical stress simulation 3
4.2.4 Accelerated storage stress simulation 4

5 Application methods for accelerated gas stress simulations **4**
5.1 General 4
5.2 Stability-relevant reactions 4
5.2.1 General 4
5.2.2 Oxidation with gaseous reactants 4
5.2.3 Reduction with gaseous reactants 5
5.2.4 Other gaseous reactants 5
5.3 Reagents 5
5.4 Apparatus 5
5.5 General stress simulation setup 7
5.6 General implementation 7
5.7 Analysis 8
5.8 Oxidative gas stress simulation 8
5.8.1 Oxygen as gas stress factor 8
5.8.2 Sulfur dioxide as gas stress factor 8
5.8.3 Nitrogen oxide as gas stress factor 9
5.9 Reductive gas stress simulation 9
5.9.1 Carbon monoxide as gas stress factor 9
5.9.2 Hydrogen as gas stress factor 9
5.10 Other gas stress simulation by use of carbon dioxide as gas stress factor 9

6 Application methods for accelerated chemical stress simulations **10**
6.1 General 10
6.2 Types of accelerated chemical stress simulations 10
6.2.1 Catalytic stress simulation 10
6.2.2 Redox and pH stress simulation 10
6.3 Accelerated catalytic stress simulation 10
6.3.1 General 10
6.3.2 Pre-simulation with a catalytic heavy metal mixture 11
6.3.3 Identification of a specific stability-influencing catalytic reaction 13
6.4 Accelerated redox and pH stress simulation 14
6.4.1 General 14
6.4.2 Reagents 14
6.4.3 Apparatus 14
6.4.4 Execution 15
6.4.5 Sample preparation and analysis 15
6.4.6 Accuracy criterion for accelerated Redox pH stress simulation (validation) 16

7 Application methods for accelerated storage stress simulations 16
7.1 General 16
7.2 Types of accelerated storage stress simulation 16
7.2.1 Temperature stress simulation 16
7.2.2 Humidity stress simulation 16
7.2.3 Combined humidity and temperature stress simulation 17
7.3 Accelerated temperature stress tests 17
7.3.1 Reagents 17
7.3.2 Apparatus 17
7.3.3 Execution 17
7.3.4 Analysis 18
7.3.5 Accuracy criterion for accelerated temperature stress simulation (validation) 18
7.4 Accelerated humidity stress simulation 18
7.4.1 Reagents 18
7.4.2 Apparatus 19
7.4.3 Execution 19
7.4.4 Analysis 20
7.4.5 Accuracy criterion for accelerated humidity stress simulation (validation) 20
7.5 Accelerated humidity and temperature stress tests 20
Annex A (informative) **Accuracy criterion for accelerated gas stress simulation (validation) 21**
Bibliography 23
