European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Performance requirements 9

5 Manufacturing and processing requirements and documentation 9

6 Information to be supplied with the product 10
6.1 Information to be supplied to the user 10
6.2 Information to be supplied to the processor 10

Annex A (normative) Testing 11

A.1 General 11
A.2 Test methods and conformance 11
A.3 Treatment of results 13

Annex B (informative) Rationales 14

B.1 General 14
B.2 Microbial cleanliness 14
B.3 Particle release 14
B.4 Bursting strength - dry 15
B.5 Tensile strength - dry 15
B.6 Resistance to microbial penetration - dry 15
B.7 Labelling 16
B.8 Treatment of results 16
B.9 Flammability 17
B.10 Electrostatic discharge 17

Annex C (informative) Environmental impact 18

Annex D (informative) Guidance to users for selecting products 20

D.1 General 20
D.2 Performance levels 20
D.3 Functional design aspects 20
D.4 Comfort 21

Annex E (informative) Functional design 22

E.1 General 22
E.2 Test method for measuring source strength 22
E.3 Use of source strength measurements 24

Annex ZA (informative) Relationship between this European standard and General Safety and Performance Requirements of Regulation (EU) 2017/745 aimed to be covered 26
