Traditional Chinese medicine - Test method for moxa floss quality - Concentration of waste particles

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Sampling 3
4.1 General 3
4.2 Sampling methods 3
4.2.1 Moxa floss products 3
4.2.2 Moxa floss in the moxibustion devices 3
4.3 Sample storage 3

5 Measurement of concentration of waste particle 3
5.1 General 3
5.2 Test instruments 4
5.2.1 General 4
5.2.2 Test sieves 4
5.2.3 Sieving machine 4
5.2.4 Test instruments organization 4
5.3 Test procedure 4
5.3.1 General 4
5.3.2 Sieving 4
5.3.3 Weighing 4

6 Calculation of concentration of waste particle 5
6.1 Total mass of specimen 5
6.2 Waste particle rate 5
6.3 Unseparation rate 6

7 Delivery of the moxa floss quality information 6
7.1 General 6
7.2 Indication 6

Annex A (informative) Example of test instruments 7

Annex B (informative) Test result of concentration of waste particle in moxa floss 9
