Traditional Chinese medicine - Test method for moxa floss quality - Concentration of waste particles

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Sampling	3
4.1	General	3
4.2	Sampling methods	3
4.2.1	Moxa floss products	3
4.2.2	Moxa floss in the moxibustion devices	3
4.3	Sample storage	3
5	Measurement of concentration of waste particle	3
5.1	General	3
5.2	Test instruments	4
5.2.1	General	4
5.2.2	Test sieves	4
5.2.3	Sieving machine	4
5.2.4	Test instruments organization	4
5.3	Test procedure	4
5.3.1	General	4
5.3.2	Sieving	4
5.3.3	Weighing	4
6	Calculation of concentration of waste particle	5
6.1	Total mass of specimen	5
6.2	Waste particle rate	5
6.3	Unseparation rate	6
7	Delivery of the moxa floss quality information	6
7.1	General	6
7.2	Indication	6
Annex A (informative) Example of test instruments		7
Annex B (informative) Test result of concentration of waste particle in moxa floss		9
Bibliography		10
