ISO 11040-8:2026-06 (E)

Prefilled syringes - Part 8: Requirements and test methods for finished prefilled syringes

Contents

Page

Foreword ... **iv**

Introduction ... **vi**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **2**

4 User requirements ... **2**
4.1 Definition of intended use ... 2
4.2 Risk management ... 3
4.3 Application of usability engineering ... 3

5 System characterization ... **3**
5.1 Critical dimensions ... 3
5.2 Description of components and materials ... 4
5.2.1 General ... 4
5.2.2 Syringe barrels and front end closures ... 4
5.2.3 Plunger stoppers/pistons (sealing the back end) ... 5
5.2.4 Additional components and/or devices ... 5
5.3 Description of the contents of the finished prefilled syringe ... 5

6 Functional performance requirements ... **6**
6.1 General ... 6
6.2 Break-loose and extrusion forces ... 6
6.3 Flange breakage resistance ... 7
6.4 Front end closure pull-off forces and torques ... 7
6.5 Connectivity with small-bore connectors ... 7
6.6 Residual volume ... 8
6.7 Needle penetration force ... 8
6.8 Needle pull-out force ... 8
6.9 Sharps injury protection requirements ... 8
6.10 Liquid leakage resistance ... 8
6.11 Markings ... 9
6.12 Administration time with defined constant test force ... 9
6.13 Unintended plunger stopper movement of finished prefilled syringes ... 9

7 Pharmaceutical requirements ... **10**
7.1 General ... 10
7.2 Interactions between container closure system and contents (injectable product) ... 10
7.3 Biological hazards and microbiological requirements ... 10
7.4 Container closure integrity ... 11
7.5 Deliverable volume ... 11
7.6 Particles (visible and sub-visible) ... 11

8 Test reports ... **11**

Annex A (normative) **Test method for break-loose and extrusion forces of finished prefilled syringes** ... **12**

Annex B (informative) **Test method for residual volume of finished prefilled syringes** ... **15**

Annex C (normative) **Test methods for liquid leakage resistance of finished prefilled syringes** ... **17**

Annex D (informative) **Test method for administration time with defined constant test force** ... **20**

Bibliography ... **22**
