|                                                                                        |    |
|----------------------------------------------------------------------------------------|----|
| Foreword .....                                                                         | ix |
| Introduction .....                                                                     | x  |
| 1 Scope .....                                                                          | 1  |
| 2 Normative references .....                                                           | 1  |
| 3 Terms and definitions .....                                                          | 1  |
| 3.1 General terms .....                                                                | 1  |
| 3.2 Health matters .....                                                               | 4  |
| 3.3 Actors, performers and resources .....                                             | 18 |
| 3.4 Activities .....                                                                   | 33 |
| 3.5 Care processes .....                                                               | 43 |
| 3.6 Time .....                                                                         | 49 |
| 3.7 Plans and events .....                                                             | 58 |
| 3.8 Mandates .....                                                                     | 65 |
| 3.9 Health records .....                                                               | 73 |
| 4 Abbreviated terms .....                                                              | 86 |
| 5 Health and care .....                                                                | 86 |
| 5.1 General .....                                                                      | 86 |
| 5.2 Explanations and comments .....                                                    | 86 |
| 5.2.1 Health state .....                                                               | 86 |
| 5.2.2 Health matter .....                                                              | 87 |
| 5.2.3 Health condition .....                                                           | 87 |
| 5.2.4 Health issue .....                                                               | 87 |
| 5.2.5 Health problem .....                                                             | 87 |
| 5.2.6 Health thread .....                                                              | 87 |
| 5.2.7 Potential health condition .....                                                 | 87 |
| 5.2.8 Observed condition .....                                                         | 87 |
| 5.2.9 Considered condition .....                                                       | 87 |
| 5.2.10 Vulnerability .....                                                             | 87 |
| 5.2.11 Social environment .....                                                        | 88 |
| 5.2.12 Social determinant of health .....                                              | 88 |
| 5.2.13 Health need .....                                                               | 88 |
| 5.3 Representation of the relationships between concepts related to health state ..... | 88 |
| 5.4 Normative statements .....                                                         | 91 |
| 5.4.1 Relationships of health state .....                                              | 91 |
| 5.4.2 Relationships of health matter .....                                             | 92 |
| 5.4.3 Relationships of clinical matter .....                                           | 92 |
| 5.4.4 Relationships of social matter .....                                             | 92 |
| 5.4.5 Relationships of health condition .....                                          | 92 |
| 5.4.6 Relationships of health issue .....                                              | 93 |
| 5.4.7 Relationships of social issue .....                                              | 93 |
| 5.4.8 Relationships of clinical issue .....                                            | 93 |
| 5.4.9 Relationships of health problem .....                                            | 93 |
| 5.4.10 Relationships of health thread .....                                            | 93 |
| 5.4.11 Relationships of health problem list .....                                      | 94 |
| 5.4.12 Relationships of potential health condition .....                               | 94 |
| 5.4.13 Relationships of observed condition .....                                       | 94 |

|        |                                                                                   |     |
|--------|-----------------------------------------------------------------------------------|-----|
| 5.4.14 | Relationships of considered condition .....                                       | 94  |
| 5.4.15 | Relationships of professionally assessed condition .....                          | 95  |
| 5.4.16 | Relationships of vulnerability .....                                              | 95  |
| 5.4.17 | Relationships of excluded condition .....                                         | 95  |
| 5.4.18 | Relationships of working diagnosis .....                                          | 95  |
| 5.4.19 | Relationships of prognostic condition .....                                       | 95  |
| 5.4.20 | Relationships of resultant condition .....                                        | 96  |
| 5.4.21 | Relationships of target condition .....                                           | 96  |
| 5.4.22 | Relationships of risk condition .....                                             | 96  |
| 5.4.23 | Relationships of social environment .....                                         | 96  |
| 5.4.24 | Relationships of health need .....                                                | 96  |
| 5.4.25 | Relationships of social need .....                                                | 97  |
| 5.4.26 | Relationships of clinical need .....                                              | 97  |
| 6      | Actors and resources .....                                                        | 97  |
| 6.1    | General .....                                                                     | 97  |
| 6.2    | Explanations and comments .....                                                   | 97  |
| 6.2.1  | Care actor .....                                                                  | 97  |
| 6.2.2  | Subject of care .....                                                             | 97  |
| 6.2.3  | Care organization .....                                                           | 97  |
| 6.2.4  | Care third party .....                                                            | 97  |
| 6.2.5  | Care personnel .....                                                              | 98  |
| 6.2.6  | Care employment .....                                                             | 98  |
| 6.2.7  | Care professional entitlement .....                                               | 98  |
| 6.2.8  | Care professional .....                                                           | 98  |
| 6.2.9  | Subject of care proxy .....                                                       | 98  |
| 6.2.10 | Care performer .....                                                              | 98  |
| 6.2.11 | Prescriber .....                                                                  | 98  |
| 6.2.12 | Care resource .....                                                               | 98  |
| 6.2.13 | Point of care .....                                                               | 98  |
| 6.2.14 | Care funds .....                                                                  | 99  |
| 6.3    | Representation of the relationships between concepts related to care actors ..... | 99  |
| 6.4    | Normative statements .....                                                        | 101 |
| 6.4.1  | Relationships of care actor .....                                                 | 101 |
| 6.4.2  | Relationships of subject of care .....                                            | 102 |
| 6.4.3  | Relationships of care provider .....                                              | 103 |
| 6.4.4  | Relationships of care third party .....                                           | 103 |
| 6.4.5  | Relationships of care organization .....                                          | 103 |
| 6.4.6  | Relationships of care employment .....                                            | 104 |
| 6.4.7  | Relationships of care personnel .....                                             | 104 |
| 6.4.8  | Relationships of care professional entitlement .....                              | 104 |
| 6.4.9  | Relationships of care professional .....                                          | 104 |
| 6.4.10 | Relationships of other carer .....                                                | 105 |
| 6.4.11 | Relationships of care supporting organization .....                               | 105 |
| 6.4.12 | Relationships of subject of care proxy .....                                      | 105 |
| 6.4.13 | Relationships of care performer .....                                             | 106 |
| 6.4.14 | Relationships of self-care performer .....                                        | 106 |
| 6.4.15 | Relationships of third party care performer .....                                 | 106 |
| 6.4.16 | Relationships of prescriber .....                                                 | 106 |
| 6.4.17 | Relationships of care resource .....                                              | 106 |
| 6.4.18 | Relationships of point of care .....                                              | 107 |
| 6.4.19 | Relationships of medical device .....                                             | 107 |
| 6.4.20 | Relationships of automatic medical device .....                                   | 107 |
| 6.4.21 | Relationships of medicinal product .....                                          | 107 |
| 6.4.22 | Relationships of care funds .....                                                 | 107 |
| 6.4.23 | Relationships of facility .....                                                   | 107 |
| 7      | Activities .....                                                                  | 108 |
| 7.1    | General .....                                                                     | 108 |
| 7.2    | Explanations and comments .....                                                   | 108 |
| 7.2.1  | Care activity .....                                                               | 108 |

|        |                                                                                       |     |
|--------|---------------------------------------------------------------------------------------|-----|
| 7.2.2  | Care activities bundle .....                                                          | 108 |
| 7.2.3  | Care investigation .....                                                              | 108 |
| 7.2.4  | Care treatment .....                                                                  | 108 |
| 7.2.5  | Health condition assessment .....                                                     | 108 |
| 7.2.6  | Care needs assessment .....                                                           | 108 |
