

# DIN EN 1064:2006-02 (E)

## Health informatics - Standard communication protocol - Computer-assisted electrocardiography; German version EN 1064:2005, text in English

---

Inhalt	Seite
Foreword .....	4
Introduction.....	5
1 Scope.....	8
2 Normative references.....	8
3 Terms and definitions .....	8
3.1 Terms specific to this document .....	8
3.2 Other technical terms related to this document .....	10
4 Abbreviations.....	10
5 Definition of the data contents and format .....	11
5.1 General considerations.....	11
5.2 Specifications for the data structure.....	13
5.3 Pointer section – Section 0 .....	16
5.4 Header information – Patient data / ECG acquisition data – Section 1 .....	18
5.5 Huffman tables – Section 2 .....	39
5.6 ECG lead definition – Section 3 .....	41
5.7 QRS locations, reference beat subtraction zones and protected areas – Section 4.....	44
5.8 Encoded type 0 reference beat data – Section 5.....	46
5.9 Rhythm data – Section 6.....	49
5.10 Global measurements – Section 7.....	50
5.11 Storage of full text interpretive statements – Section 8.....	56
5.12 Storing manufacturer specific interpretive statements and data related to the overreading trail – Section 9.....	58
5.13 Lead measurement block – Section 10.....	58
5.14 Storage of the universal ECG interpretive statement codes – Section 11 .....	61
6 Minimum requirements for encoding and compression of the ECG signal data .....	64
6.1 Scope and field of application .....	64
6.2 Introduction.....	64
6.3 ECG compression methodology.....	65
6.4 Main results from investigations on ECG data compression in the SCP-ECG project.....	66
6.5 Minimum requirements for ECG data compression .....	67
Annex A (normative) Encoding of alphanumeric ECG data in a multilingual environment .....	69
A.1 General .....	69
A.2 Scope.....	69
A.3 References and definitions .....	70
A.4 Values .....	71
A.5 Control characters.....	72
A.6 Character set encoding.....	73
A.7 Language code .....	82
A.8 Method for handling unsupported character sets .....	82
A.9 Summary of the Escape sequences described in this annex for the encoding of free text in SCP-ECG .....	83
A.10 Examples of encoded text strings .....	84
Annex B (normative) Definition of compliance with the SCP ECG standard .....	85
B.1 General .....	85
B.3 Testing/validation of SCP-ECG data format compatibility .....	91
B.4 Coding of SCP-ECG compliance .....	94

<b>Annex C (normative) Methodology and conformance testing of the recommended ECG signal compression technique .....</b>	<b>95</b>
<b>C.1 General.....</b>	<b>95</b>
<b>C.2 Principles of “HIGH” SCP-ECG data compression .....</b>	<b>95</b>
<b>C.3 Equations for SCP-ECG data compression .....</b>	<b>98</b>
<b>C.4 Numerical examples for SCP-ECG data compression.....</b>	<b>123</b>
<b>C.5 Test set of ECGs for conformance testing.....</b>	<b>128</b>
<b>Annex D (informative) Definition of a minimum set of control and query messages for the interchange of ECG data.....</b>	<b>129</b>
<b>D.1 General.....</b>	<b>129</b>
<b>D.2 Message formats.....</b>	<b>129</b>
<b>D.3 State diagrams .....</b>	<b>138</b>
<b>D.4 Message sequence examples.....</b>	<b>141</b>
<b>D.5 Use of advisory messages.....</b>	<b>143</b>
<b>Annex E (informative) Standard low-level ECG-Cart to host protocol.....</b>	<b>144</b>
<b>E.1 General.....</b>	<b>144</b>
<b>E.2 Data link and physical functional layers .....</b>	<b>144</b>
<b>E.3 Physical functional layer.....</b>	<b>144</b>
<b>E.4 Remote connection .....</b>	<b>145</b>
<b>E.5 Data link functional layer .....</b>	<b>145</b>
<b>Annex F (informative) Universal ECG interpretation statements codes.....</b>	<b>157</b>
<b>F.1 General.....</b>	<b>157</b>
<b>F.2 Constraints.....</b>	<b>157</b>
<b>F.3 Composition of the code and general syntax rules .....</b>	<b>157</b>
<b>F.4 Acronyms for ECG interpretive statements.....</b>	<b>161</b>
<b>F.5 Overreading of measurement results.....</b>	<b>176</b>
<b>Annex G (informative) Glossary.....</b>	<b>180</b>
<b>Bibliography.....</b>	<b>182</b>
<b>National and international standards .....</b>	<b>182</b>
<b>References from the ECG standards literature .....</b>	<b>182</b>
<b>Specific references with respect to ECG data compression .....</b>	<b>183</b>
