## Rail systems for supporting medical equipment

---

<b>Contents</b>		Page
Foreword.....		iv
Introduction .....		v
1 Scope .....		1
2 Normative references .....		1
3 Terms and definitions.....		1
4 General Requirements.....		4
4.1 Safety .....		4
4.2 * Alternative construction .....		4
4.3 Materials .....		4
4.4 Electrical requirements .....		4
5 Rail system requirements .....		4
5.1 Rail supports .....		4
5.2 Rail.....		4
5.3 Joining of rails .....		9
5.4 Rail clamp .....		9
5.5 Equipment mount holder .....		11
5.6 Equipment mount .....		12
5.7 Equipment mount pin holder.....		13
5.8 Equipment mount pin .....		14
5.9 * Mechanical characteristics of the rail after installation .....		14
6 Marking, labelling and packaging .....		15
7 Testing, commissioning and certification.....		16
7.1 Tests after installation.....		16
7.2 Certification of the installed rail system.....		16
8 Information to be supplied by the manufacturer.....		16
8.1 Upon delivery of rail and supports .....		16
8.2 Upon delivery of other components of the rail system .....		17
Annex A (informative) Example of a form for certification of the rail system.....		18
Annex B (informative) Rationale .....		19
Annex C (informative) Special national and regional conditions for electrical installations .....		20
Bibliography .....		21
