

ISO 19054 :2005-07 (E)

Rail systems for supporting medical equipment

Contents		Page
Foreword.....		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions.....		1
4 General Requirements.....		4
4.1 Safety		4
4.2 * Alternative construction		4
4.3 Materials		4
4.4 Electrical requirements		4
5 Rail system requirements		4
5.1 Rail supports		4
5.2 Rail.....		4
5.3 Joining of rails		9
5.4 Rail clamp		9
5.5 Equipment mount holder		11
5.6 Equipment mount		12
5.7 Equipment mount pin holder.....		13
5.8 Equipment mount pin		14
5.9 * Mechanical characteristics of the rail after installation		14
6 Marking, labelling and packaging		15
7 Testing, commissioning and certification.....		16
7.1 Tests after installation.....		16
7.2 Certification of the installed rail system.....		16
8 Information to be supplied by the manufacturer.....		16
8.1 Upon delivery of rail and supports		16
8.2 Upon delivery of other components of the rail system		17
Annex A (informative) Example of a form for certification of the rail system.....		18
Annex B (informative) Rationale		19
Annex C (informative) Special national and regional conditions for electrical installations		20
Bibliography		21
