DIN EN 14822-1:2006-05 (E)

Health informatics - General purpose information components - Part 1: Overview; English version EN 14822-1:2005

Inhalt

Seite

Foreword 4

Introduction 6

1 Scope 8

2 Normative references 8

3 Terms and definitions 8

4 Symbols and abbreviations 8

5 General Purpose Information Components – their design 8
5.1 Basic design objectives 8
5.2 General Purpose Information Components and the Health Level Seven RIM 9
5.3 Health Level 7 (HL7) Reference Information Model 11

6 Common features of the general purpose information components 26

7 Use of general purpose information components in communication 28

8 Localisation of the general purpose information components 28

9 Overview of the content of EN 14822-2 and EN 14822-3 29
9.1 EN 14822-2 GPICs: Non-Clinical 29
9.2 EN 14822-3 GPICs: Clinical 29

Annex A (informative) **How to read the models** 30
A.1 Introduction 30
A.2 Classes 30
A.3 Associations between classes 30
A.4 Generalisation/specialisation 31

Annex B (informative) **HL7 RIM Class specialisations** 32
B.1 Introduction 32
B.2 Entity class and its specialisations 32
B.3 Role class and its specialisations 33
B.4 Act class and its specialisations 34
