Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Requirements 6

5 Materials and reagents 6

6 Test method (general) 11

7 Test protocols with specific test viruses for specified intended use 16

8 Calculation and expression of results 19

9 Expression of results 20

Annex A (normative) Detoxification of test mixtures by molecular sieving 21

Annex B (informative) Examples of viruses which may contaminate human medical instruments, hands, surfaces 23

Annex C (informative) Calculation of the viral infectivity titre 25

Annex D (informative) Presentation of test results of one active concentration 27

Annex E (informative) Quantitative determination of formaldehyde concentrations 30

Annex F (informative) Information on the application and interpretation of European standards on chemical disinfectants and antiseptics 31
