

DIN EN ISO 11140-3:2007-07 (E)

Sterilization of health care products - Chemical indicators - Part 3: C lass 2 indicator systems for use in the Bowie and Dick-type steam penetration test (ISO 11140-3:2007)

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	6
4 General requirements	6
5 Indicator system format	6
6 Performance requirements	6
7 Packaging and labelling	7
8 Quality assurance	8
Annex A (normative) Determination of strength after steam sterilization	9
Annex B (normative) Estimation of visual difference between colour of the substrate and the changed (or unchanged) indicator system by determination of relative reflectance density	10
Annex C (normative) Determination of indicator colour change on exposure to dry saturated steam	14
Annex D (normative) Determination of indicator colour change on exposure to dry heat	15
Annex E (normative) Accelerated ageing of test samples	16
Annex F (normative) Determination of transfer of indicator to standard test pack on processing	17
Annex G (normative) Determination of shelf life of the product	18
Annex H (normative) Steam exposure apparatus	19
Annex I (normative) Determination of sensitivity of the indicator to the presence of air	21
Annex J (normative) Air injection system	22
Annex K (normative) Standard test pack	24
