

DIN EN ISO 8835-2:2007-11 (E)

Inhalational anaesthesia systems - Part 2: Anaesthetic breathing systems (ISO 8835-2:2007)

Contents		Page
Foreword.....		4
Introduction		5
* 1 Scope		6
2 Normative references		6
3 Terms and definitions.....		7
4 General.....		8
4.1 Materials		8
4.2 Anaesthetic breathing system component packaging		8
4.3 Electrical requirements		8
4.4 Alternative test methods.....		9
5 Connection ports		9
5.1 Patient connection port.....		9
5.2 Y-Piece		9
5.3 Exhaust connection port.....		9
5.4 Interchangeable non-rebreathing exhaust valves.....		9
* 5.5 Reservoir bag connection port.....		9
5.6 Anaesthetic ventilator connection port.....		10
5.7 Connection ports of interchangeable anaesthetic breathing system components.....		10
* 5.8 Inspiratory and expiratory connection ports of an interchangeable circle absorber assembly.....		10
5.9 Other connection ports		10
6 Reservoir bag/anaesthetic ventilator selector switch.....		10
7 Complete anaesthetic breathing system either supplied assembled or assembled in accordance with the manufacturer's instructions		10
* 7.1		
* 7.2 Inspiratory and expiratory pressure/flow characteristics		11
Leakage.....		10
8 Interchangeable anaesthetic breathing system components — Exhaust valves		11
8.1 Direction of movement of controls		11
8.2 Pressure/flow characteristics		11
8.3 Opening pressure		11
8.4 Leakage.....		11
9 Circle absorber assemblies		11
9.1 Construction.....		11
9.2 Absorbent bypass mechanism.....		12
9.3 Pressure/flow characteristics		12
9.4 Inspiratory and expiratory valves		12
10 Pressure monitoring and limitation		13
10.1 Pressure monitoring.....		13
10.2 Pressure-limiting device		13
* 11 Location of components in an anaesthetic breathing system containing a circle absorber assembly (as defined in 3.3)		13
11.1 Exhaust valve		13
11.2 Reservoir bag connection port.....		13
11.3 Fresh gas inlet.....		13
11.4 Inspiratory and expiratory valves		13
12 Marking		14

12.1 Marking of complete anaesthetic breathing systems and anaesthetic breathing system components 14

12.2 Marking of packages..... 15

13 Information to be provided by the manufacturer or supplier 15

13.1 General 15

13.2 For anaesthetic breathing systems supplied complete..... 15

13.3 For anaesthetic breathing system components 16

Annex A (normative) Typical test arrangements and methods 18

Annex B (informative) Rationale 23

Annex C (informative) Environmental aspects 25

Annex D (normative) Antistatic requirements 26

Bibliography 27

Annex ZA (informative) Relationship between this standard and the Essential Requirements of EU Directive 93/42/EEC..... 28
