Foreword ... 3

Introduction ... 4

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 5

4 General requirements ... 6
4.1 Safety for PEFMs that utilize electricity ... 6
4.2 Mechanical safety for all PEFMs ... 6

5 Identification, marking and documents ... 6
5.1 Marking of the scale or display ... 6
5.2 Marking of PEFM or packaging ... 7
5.3 Instructions for use ... 7
5.4 Technical description ... 8

6 PEFM measurement range ... 8

7 Performance requirements ... 8
7.1 Error of measurement ... 8
7.2 Linearity ... 8
7.3 Resistance to flow ... 9
7.4 Frequency response ... 9

8 Dismantling and reassembly ... 9

9 Effects of mechanical ageing ... 9

10 Effects of dropping a hand-held PEFM ... 9

11 Cleaning, sterilization and disinfection ... 9
11.1 Re-usable PEFM and parts ... 9
11.2 PEFM and parts delivered sterile ... 10

12 Compatibility with substances ... 10

13 Biocompatibility ... 10

Annex A (informative) **Rationale for tests and examples of test apparatus** ... 11

Annex B (normative) **Determination of error, repeatability and resistance to PEFM output** ... 14

Annex C (normative) **Determination of frequency response** ... 17

Annex D (normative) **Test methods for determination of the effects of dismantling, ageing and dropping** ... 19

Annex E (informative) **Environmental aspects** ... 21

Annex F (informative) **Reference to the essential principals** ... 23

Bibliography ... 26

Annex ZA (informative) **Relationship between this International Standard and the Essential Requirements of EU Directive 93/42/EEC** ... 28
