DIN EN 16231:2012-11 (E)

Energy efficiency benchmarking methodology

Contents

Page

Foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Energy efficiency benchmarking methodology 9
4.1 Minimum requirements for energy efficiency benchmarking 9
4.2 Benchmarking steps 9
4.2.1 Purpose and planning 9
4.2.2 Data collection and verification 10
4.2.3 Analysis and results 11
4.2.4 Reporting 11

Annex A (informative) Example of a checklist for an energy efficiency benchmarking 12

Annex B (informative) Two examples of energy efficiency benchmarking data collection questionnaires 14

Annex C (informative) Checklist correction factors 18

Annex D (informative) Plausibility check of input data 19

Annex E (informative) Two examples of presentation of benchmarking output 20

Annex F (informative) Benchmarking as a management tool 22
