

DIN EN 16231:2012-11 (E)

Energy efficiency benchmarking methodology

Contents	Page
Foreword	3
Introduction	4
1 Scope	6
2 Normative references	6
3 Terms and definitions	6
4 Energy efficiency benchmarking methodology	9
4.1 Minimum requirements for energy efficiency benchmarking	9
4.2 Benchmarking steps	9
4.2.1 Purpose and planning	9
4.2.2 Data collection and verification	10
4.2.3 Analysis and results	11
4.2.4 Reporting	11
Annex A (informative) Example of a checklist for an energy efficiency benchmarking	12
Annex B (informative) Two examples of energy efficiency benchmarking data collection questionnaires	14
Annex C (informative) Checklist correction factors	18
Annex D (informative) Plausibility check of input data	19
Annex E (informative) Two examples of presentation of benchmarking output	20
Annex F (informative) Benchmarking as a management tool	22
Bibliography	23
