ISO 14055-1:2017-10 (E)

Environmental management - Guidelines for establishing good practices for combattin g land degradation and desertification - Part 1: Good practices framework

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1
3.1 Terms related to combatting land degradation and desertification 1
3.2 Terms related to land 4

4 Principles 6
4.1 General 6
4.2 Sustainable development 6
4.3 Transparency 7
4.4 Social responsibility 7
4.5 Partnership 7
4.6 Scientific approach 7
4.7 Good governance 8
4.8 Alignment with national, regional and international initiatives 8
4.9 Respect for human rights 8

5 Identification of factors contributing to land degradation and desertification 8
5.1 General 8
5.2 Drivers of land degradation and desertification 8
5.2.1 Overview of factors affecting the function of ecosystems 8
5.2.2 Natural factors contributing to land degradation and desertification 9
5.2.3 Anthropogenic factors contributing to land degradation and desertification 10
5.3 Forms of land degradation 11
5.3.1 Soil erosion 11
5.3.2 Deterioration of soil chemical properties 12
5.3.3 Deterioration of soil physical properties 13
5.3.4 Degradation of soil biological properties 13
5.3.5 Degradation of soil water properties 13
5.3.6 Degradation of ecosystem structure and biodiversity 14

6 Guidelines for establishing good practices and monitoring their implementation 14
6.1 Objectives for good practices to combat land degradation and desertification 14
6.1.1 General 14
6.1.2 Objectives to consider when establishing good practices 14
6.2 Identifying applicable good practices 15
6.2.1 Identify regionally relevant land degradation and desertification factors 15
6.2.2 Identifying legality and restrictions in the land use 15
6.2.3 Criteria for good practices to combat land degradation and desertification 15
6.3 Framework for planning and implementing good practices 16
6.3.1 General 16
6.3.2 Developing a good practices action plan 17
6.3.3 Implementing the action plan for good practices 18
6.3.4 Monitoring the effectiveness of implementation of the action plan 18
6.3.5 Reviewing and refining the good practices action plan 19

6.4 Communication 19

Annex A (informative) Natural factors contributing to land degradation 20

Annex B (informative) Anthropogenic factors contributing to land degradation 24

Bibliography 28
