## Smart community infrastructures - Smart transportation using battery-powered buses for passenger services

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	General .....	1
5	Operation of smart transportation using battery-powered buses .....	2
5.1	General .....	2
5.2	Minimum requirements to organize smart transportation .....	2
5.2.1	Recharging .....	2
5.2.2	Scheduling/dispatching .....	2
5.2.3	Maintenance work .....	2
5.2.4	Passenger services .....	2
5.2.5	Safety and ride comfort .....	3
5.2.6	Weather and climate conditions .....	3
5.2.7	Driving conditions .....	3
5.2.8	Driving skills/performance .....	3
5.2.9	Energy saving .....	3
6	Maintenance of the quality of smart transportation using battery-powered buses .....	3
6.1	General .....	3
6.2	Parameters to be observed .....	3
6.3	Modification of smart transportation .....	3
Annex A (informative) Trials given by Paris City in December 2016 to suppress air pollution by inviting citizens using internal-combustion-engine-driven vehicles to electrically-operated transportation services .....		4
Annex B (informative) Example of cities and countries where battery-powered buses are operated ...		5
Annex C (informative) A typical city aiming at low-carbon transportation[5] .....		6
Bibliography .....		8
