|--|--|-------------|
| European foreword .....  |  | 4           |
| Introduction .....   |  | 5           |
| 1  | Scope .....  | 6           |
| 2  | Normative references .....   | 6           |
| 3  | Terms and definitions .....  | 6           |
| 3.1  | General definitions .....  | 6           |
| 3.1.1  | Terms related to reliability and durability .....                                | 6           |
| 3.1.2  | Terms related to functions .....   | 7           |
| 3.1.3  | Activities related to use .....  | 8           |
| 3.1.4  | Other terms .....  | 9           |
| 3.2  | Abbreviations .....  | 9           |
| 4  | Concept and process overview .....   | 10          |
| 4.1  | Concept .....  | 10          |
| 4.1.1  | General .....  | 10          |
| 4.1.2  | Difference between reliability and durability .....                              | 11          |
| 4.1.3  | Concepts of functional analysis, primary, secondary and tertiary functions ..... | 11          |
| 4.1.4  | Concepts of limiting event and limiting state .....                              | 12          |
| 4.2  | Process overview and guidance .....  | 12          |
| 5  | Definition of the Product .....  | 13          |
| 5.1  | Functional analysis .....  | 13          |
| 5.2  | Environmental and operating conditions .....                                     | 14          |
| 5.3  | Additional information .....   | 14          |
| 6  | Reliability .....  | 14          |
| 6.1  | General considerations .....   | 14          |
| 6.2  | Reliability analysis .....   | 15          |
| 6.3  | Reliability assessment methods .....   | 15          |
| 7  | Durability .....   | 16          |
| 7.1  | General considerations .....   | 16          |
| 7.2  | Durability analysis .....  | 16          |
| 7.3  | Durability assessment methods .....  | 17          |
| 8  | Documenting the assessment of reliability and durability .....                   | 17          |
| 8.1  | General .....  | 17          |
| 8.2  | Elements of the assessment .....   | 17          |
| 8.3  | Documentation .....  | 18          |
| Annex A(informative) Additional details on durability and reliability analysis ..... |  | 19          |
| A.1  | Environmental and operating conditions .....                                     | 19          |
| A.2  | Stress analysis .....  | 20          |
| A.3  | Damage modelling .....   | 21          |
| A.4  | Acceleration factors (AF) .....  | 21          |
| Annex B(informative) Additional details on testing development .....                 |  | 25          |

|   |  |           |
|---|--|-----------|
| <b>B.1</b>  | <b>Stress modelling</b> .....                              | <b>25</b> |
| <b>B.2</b>  | <b>Accelerated tests</b> .....                             | <b>25</b> |
| <b>Annex C(informative) Maintenance and repair considerations for an increased reliability and durability</b> ..... |  | <b>28</b> |
| <b>C.1</b>  | <b>General</b> .....                                       | <b>28</b> |
| <b>C.2</b>  | <b>Wear-out parts and spare parts considerations</b> ..... | <b>29</b> |
| <b>Annex D(informative) Additional details on limiting event and limiting state</b> .....                           |  | <b>31</b> |
| <b>Bibliography</b> .....   |  | <b>32</b> |
