## Smart community infrastructures - Smart transportation for newly developing areas

---

Contents	Page
Foreword .....	iv
Introduction .....	v
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	1
4 Concept of smart transportation for newly developing areas .....	1
4.1 General .....	1
4.2 Transportation modes for newly developing areas .....	2
4.2.1 General .....	2
4.2.2 Transportation modes applicable inside newly developing areas .....	2
4.2.3 Transportation modes applied between a newly developing area and the outside region ....	3
5 Adoption of smart transportation for newly developing areas .....	3
5.1 General .....	3
5.2 Conditions for transportation mode selection .....	3
5.2.1 General .....	3
5.2.2 Transportation capacity .....	3
5.2.3 Service frequency .....	4
5.2.4 Stop/station interval .....	4
5.2.5 Geographical applicability .....	4
5.2.6 Running performance .....	4
5.2.7 Exclusive tracks and/or street lanes .....	4
5.2.8 Promotion of environmentally friendly vehicles and life-cycle performance .....	4
5.2.9 Coach convenience and safety .....	4
5.2.10 Town value and attractiveness .....	4
5.2.11 Emergency measures .....	5
5.2.12 Energy saving .....	5
5.2.13 Driverless operation applicability .....	5
5.2.14 On-time operation .....	5
5.2.15 Flexibility in track arrangements .....	5
5.3 Installation of smart transportation .....	5
6 Sustainability in quality of smart transportation for newly developing areas .....	5
6.1 General .....	5
6.2 Parameters to be observed .....	5
6.3 Re-optimization of smart transportation conditions .....	6
Annex A (informative) Transportation modes used in existing newly developing areas .....	7
Bibliography .....	10
