Smart community infrastructures - Data exchange and sharing for community infrastructures based on geographic information

Contents

Page

Foreword ... **iv**

Introduction ... **v**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 Abbreviated terms ... **2**

5 Overview of this document ... **2**

6 Roles and benefits ... **2**

7 Framework for data exchange and sharing for community infrastructures based on geographic information ... **3**

7.1 Framework ... 3

7.2 Database layer ... 4

7.3 Platform layer ... 5

7.4 Application layer ... 6

7.5 Implementation pattern ... 6

8 Application scenarios ... **6**

8.1 General ... 6

8.2 Community infrastructure census ... 6

8.3 Community infrastructure planning ... 6

8.4 Community infrastructure management ... 7

8.5 Water management ... 7

8.6 Transportation management ... 7

8.7 Public safety management ... 8

8.8 Environmental protection ... 8

8.9 Renewable energy management ... 8

Annex A (informative) **Use cases of data exchange and sharing for community infrastructures based on geographic information in different cities** ... **9**

Bibliography ... **16**
