Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 General 2

5 Database 3
5.1 Geospatial data 3
5.1.1 General 3
5.1.2 Geospatial framework data 3
5.1.3 City unit grid data 3
5.2 Event data 4
5.2.1 Event classification 4
5.2.2 Event data coding 4
5.2.3 Event data attributes 4
5.3 Operation data 4
5.3.1 Overview 4
5.3.2 Event handling process data 4
5.3.3 Evaluation data of event handling results 4
5.4 System operation supporting data 5
5.4.1 Overview 5
5.4.2 User authentication configuration data 5
5.4.3 Regional configuration data 5
5.4.4 Organization configuration data 5
5.4.5 Workflow configuration data 5
5.4.6 Grid administrator configuration data 5
5.4.7 Map-related configuration data 5
5.4.8 Configuration data of data dictionary item 5
5.5 Metadata 5
5.6 Data updating 6

6 Data platform and system 6
6.1 Data capture system 6
6.2 Filing system 6
6.3 Collaborative work system 6
6.4 Monitoring system 6
6.5 Geocoding system 6
6.6 Evaluation system 6
6.7 Application maintenance system 7
6.8 Basic data resource management system 7

7 Governance and applications 7

8 Data sharing, security and privacy 7

Annex A (informative) Case studies **8**

Bibliography **11**
