Smart community infrastructures - Principles and requirements for performance metrics

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Overview 3
4.1 General 3
4.2 Possible uses 3
4.2.1 General 3
4.2.2 Support tool for community managers 4
4.2.3 Facilitation tool 4

5 Principles 4
5.1 General 4
5.2 Ideal properties to be achieved 5
5.3 Relating community issues onto community infrastructure performances 5
5.4 Possible stakeholders to be considered 6

6 Requirements for common approach to identify metrics 7
6.1 General requirements 7
6.2 Requirements for understanding the perspectives of key stakeholders for community infrastructures 9
6.2.1 General 9
6.2.2 Residents perspective 9
6.2.3 Community managers perspective 9
6.2.4 Environmental perspective 9
6.3 Requirements for identifying the category of needs 10
6.3.1 General 10
6.3.2 Category of needs related to residents 10
6.3.3 Category of needs related to community managers 10
6.3.4 Category of needs related to the environment 10
6.4 Guidance for translating the categories of needs into performance characteristics 10
6.4.1 General 10
6.4.2 Performance characteristics related to residents 11
6.4.3 Performance characteristics related to community managers 12
6.4.4 Performance characteristics from the environmental perspective 13
6.5 Requirements for identifying indicators 13

Annex A (informative) Examples of applicability of the step-wise approach to existing key performance indicators for particular types of community infrastructure 15

Annex B (informative) Example of relating community issues onto community infrastructure performances 44
