

DIN EN 18034:2025-07 (E)

Algae and algae products - Methods of sampling and analysis - Determination of chlorophyll *a* content

Contents	Page
European foreword	3
Introduction	4
1 Scope.....	5
2 Normative references.....	5
3 Terms and definitions	5
4 Principle	6
5 Apparatus	6
6 Reagents and materials	6
7 Sampling and preparation of the sample	8
8 Procedure	8
9 Calculation of chlorophyll <i>a</i> concentration	12
10 Test Report.....	13
Annex A (informative) Chlorophyll standards and standard curves for calibration	15
Annex B (informative) Results of Interlaboratory Trial and Round Robin for chlorophyll <i>a</i> , <i>b</i> and <i>c</i>	16
B.1 Introduction.....	16
B.2 Results of the Interlaboratory Trial for chlorophyll <i>a</i>	16
B.3 Results of the Interlaboratory Trial for chlorophyll <i>b</i> and <i>c</i>	18
B.4 Results of the Round Robin for chlorophyll <i>a</i>	19
B.5 Results of the Round Robin for chlorophyll <i>b</i>	26
B.6 Results of the Round Robin for chlorophyll <i>c</i>	28
B.7 Conclusions of the Round Robin.....	31
Annex C (informative) Identification of chlorophyll <i>a</i>	32
C.1 Identification of chlorophyll <i>a</i>	32
C.2 Chlorophyll <i>a</i> standard: Triple gradient – C18 stationary phase	32
C.3 Chlorophyll <i>a</i> standard: Double gradient – C8 stationary phase.....	35
Bibliography.....	39
