ISO 50002-3:2025-06 (E)

Energy audits - Part 3: Guidance for conducting an energy audit using ISO 50002-1 in processes

Contents

Page

Foreword ... **iv**

Introduction ... **v**

1 Scope ... **1**

2 Normative references ... **1**

3 Terms and definitions ... **1**

4 Principles of energy auditing ... **2**

5 Performing an energy audit ... **2**

5.1 General ... 2
5.2 Planning ... 2
5.3 Opening meeting ... 3
5.4 Data collection ... 3
5.5 Measurement plan ... 4
5.5.1 General ... 4
5.5.2 Preliminary data analysis ... 4
5.5.3 Data measurement plan ... 4
5.6 Site visit ... 5
5.6.1 Site visits ... 5
5.6.2 Management of field work ... 5
5.7 Analysis ... 5
5.7.1 General ... 5
5.7.2 Analysis of current energy performance ... 5
5.7.3 Identification of energy performance improvement opportunities ... 6
5.7.4 Evaluation of energy performance improvement opportunities ... 7
5.8 Reporting ... 7
5.8.1 General ... 7
5.8.2 Report content ... 7
5.9 Closing meeting ... 7

6 Competence of the energy auditor ... **7**

Annex A (informative) **Data which can be collected** ... **8**

Annex B (informative) **Quality of measurement plan** ... **15**

Annex C (informative) **Representative energy sampling approach for multi-site organizations** ... **17**

Bibliography ... **19**
