Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 Terms specific to biodiversity 1
3.2 Terms specific to the approaches of the organizations 2

4 Context of the biodiversity approach 5
4.1 Scope of the biodiversity approach 5
4.2 Review of existing policies, initiatives and actions 5
4.3 Consideration of interested parties 6
4.4 Staying updated 6

5 Involvement of interested parties 6

6 Identifying and prioritizing biodiversity impacts, dependencies, risks and opportunities 7
6.1 General 7
6.2 Identification of the material ecosystem services dependencies 7
6.3 Identification of the material impacts on biodiversity and ecosystem services 8
6.4 Identification of the material biodiversity-related risks and opportunities 8
6.5 Prioritization of the impacts, dependencies, risks and opportunities 10

7 Formalizing the biodiversity action plan 10
7.1 Organization's ambition 10
7.2 Defining objectives 10
7.3 Action planning 11
7.4 Setting indicators 12
7.5 Integrating the local context 12

8 Communication 12
8.1 General 12
8.2 Internal communication of results 13
8.3 External communication of results 13

9 Implementation, monitoring and review 13
9.1 Implementation 13
9.2 Monitoring indicators 13
9.3 Analysis of indicators' results 13
9.4 Continual improvement 14

Annex A (informative) Resources to support implementation of a biodiversity approach 15

Annex B (informative) DPSIR Framework applied to biodiversity 17
