

ISO 17620:2025-10 (E)

Biodiversity - Process for designing and implementing biodiversity net gain in development projects

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Abbreviated terms	4
5	Requirements for all stages of the BNG process	5
5.1	BNG requirements	5
5.2	Measuring change	6
6	Preparation	7
6.1	General	7
6.2	Recording a commitment to achieving BNG	7
6.3	Assessing the feasibility of achieving BNG	8
6.4	Informing decisions on project option appraisal	10
7	Environmental assessment and design	11
7.1	General	11
7.2	Environmental assessment	11
7.2.1	Establishing the project's biodiversity baseline	11
7.2.2	Assessing impacts and applying the mitigation hierarchy	12
7.2.3	Reporting the environmental impact assessment	13
7.3	Designing BNG	13
7.3.1	General	13
7.3.2	Setting and documenting measurable BNG targets	13
7.3.3	Applying the principle of like-for-like or better	14
7.3.4	Informing the project design	15
7.3.5	Consulting interested parties and stakeholders	15
7.3.6	BNG options	16
7.3.7	Avoiding then reducing the time lag between losses and net gains	16
7.3.8	Avoiding then reducing the distance between losses and net gains	17
7.3.9	Additionality	17
7.3.10	Making a long-term contribution towards conservation priorities	17
7.3.11	Prioritizing achievement of the project's BNG targets	18
7.3.12	Assessing feasibility of delivering BNG	18
7.3.13	Finalizing BNG design outputs	18
7.3.14	Management and monitoring plan	19
7.3.15	Handover from design to implementation	20
7.3.16	Design changes	20
8	Implementation	20
8.1	General	20
8.2	Site set up	20
8.3	Protecting existing biodiversity features	21
8.4	Importance of time of year	21

8.5	Recording during implementation works	21
8.6	BNG agreement	21
8.7	Handover from implementation to management	22
9	Management, monitoring and reporting	22
9.1	Implementation of the MMP	22
9.2	Monitoring	23
9.3	Record management	23
9.4	Reporting	23
9.5	Handover	24
10	Auditing	24
	Annex A (informative) Elements for consideration at different stages of the process	25
	Annex B (informative) Irreplaceable biodiversity features	27
	Annex C (informative) Examples of BNG design measures	28
	Annex D (normative) BBOP Principles on Biodiversity Offsets	30
	Bibliography	31
