DIN EN ISO 6887-6:2013-06 (E)

Microbiology of food and animal feed - Preparation of test samples, initial suspension and decimal dilutions for microbiological examination - Part 6: Specific rules for the preparation of samples taken at the primary production stage (ISO 6887-6:2013)

Contents

Page

Foreword .....

1 Scope .....

2 Normative references .....

3 Terms and definitions .....

4 Principle .....

5 Diluents and disinfectants .....
5.1 Diluents for special purposes .....
5.2 Disinfectants for use during laboratory examination .....

6 Apparatus and glassware .....

7 Types of sample that can be sent to the laboratory .....

8 Preparation of samples .....
8.1 General .....
8.2 Storage .....

9 Specific procedures .....
9.1 Procedures carried out on samples taken at farm .....
9.2 Procedures carried out on samples taken from slaughterhouse .....
9.3 Procedures for samples taken from poultry at hatchery or when transporting from hatchery to farm .....

10 Further decimal dilutions .....

Bibliography .....
