Microbiology of food and animal feed - Preparation of test samples, initial suspension and decimal dilutions for microbiological examination - Part 6: Specific rules for the preparation of samples taken at the primary production stage

Contents	Page
Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Principle	2
5 Diluents and disinfectants	2
5.1 Diluents for special purposes	2
5.2 Disinfectants for use during laboratory examination	3
6 Apparatus and glassware	3
7 Types of sample that can be sent to the laboratory	3
8 Preparation of samples	3
8.1 General	3
8.2 Storage	4
9 Specific procedures	4
9.1 Procedures carried out on samples taken at farm	4
9.2 Procedures carried out on samples taken from slaughterhouse	6
9.3 Procedures for samples taken from poultry at hatchery or when transporting from hatchery to farm	7
10 Further decimal dilutions	8
Bibliography	9
